Travel enthusiasts will celebrate *The Traveler's Passport to the Caribbean, Central America, and South America*. Designed to help travelers keep track of their visits to these regions, *The Traveler's Passport* has an interesting and informative entry for each country with colorful photos, the flag, space to write the date of the visit, and interesting facts like the country's landmass area, population, languages, currency, and important products.

For ease of use, countries and territories are grouped by region and arranged alphabetically. Travelers can also keep track of where they have been by using a highlighter marker to color in locations they have visited on designated map pages. A "Geography of the Caribbean" section illustrates the location and the political status of every country in the Caribbean, including all of the dependencies and independent nations. There is a similar entry for each South and Central American country.

In the back of the book, travelers will find helpful items to pack for their trip, useful expressions in four languages (Dutch, French, Portuguese, and Spanish), fun trivia questions, and pictures of culinary specialties in three cuisine sections that correspond to regions. The memorabilia section is a place to collect stamps from parks, hotels, airline offices, banks, and baggage tags, and includes beautiful pictures of U.S. Caribbean National Park sites in both Puerto Rico and the U.S. Virgin Islands.

"A Convenient Way to Enrich Your Caribbean Experience"

Jamaica
